

2024-2025

A romantic wedding photograph of a couple standing on a rocky riverbank at sunset. The bride is wearing a long, flowing white lace gown with a long train that spreads across the ground. The groom is in a dark suit. They are facing each other, and the sun is low on the horizon, creating a warm, golden glow and lens flare effects. The background features a wide river, lush green trees on the left bank, and rolling hills in the distance under a soft, hazy sky.

## Hello there!

We are **Darren and Jade Photography and Videography**,  
a fun loving, always camera carrying team based in Singapore.

We've been shooting weddings since 2012  
and treat every wedding as if it was our own.

We're all about the *relationship* - we'd love to get to know you better  
and hear all about you and your story.

We love shooting weddings and all the genuine heartfelt emotions that come with them.

We can't say enough about how thankful we are to have been trusted with capturing our couples' wedding photographs.

For us, it's a real privilege to be part of your special day.

We love the things in our life that make our hearts  
beat and become the wind in our sail.

**Let the love take your breath away.**

We are humbled to share that our photography has garnered us 13 awards from the prestigious New-York based association Wedding & Portrait Photographers International (WPPi) to date.

# CLIENT TESTIMONIALS

"We had the pleasure of having Darren & Jade take our pre-wedding and wedding shoots in Melbourne and we wouldn't have wanted anyone else to capture our special day! They were amazing, their enthusiasm is infectious and they make everyone feel instantly relaxed while they smile and snap away! Our family and friends all loved having them around, they were a part of our wedding from the early morning until the very end. Thanks again for the beautiful and fun photos, Darren & Jade - you have truly captured the spirit of our wedding and we will always flip back to these photos with a smile."

- Allee & Rob

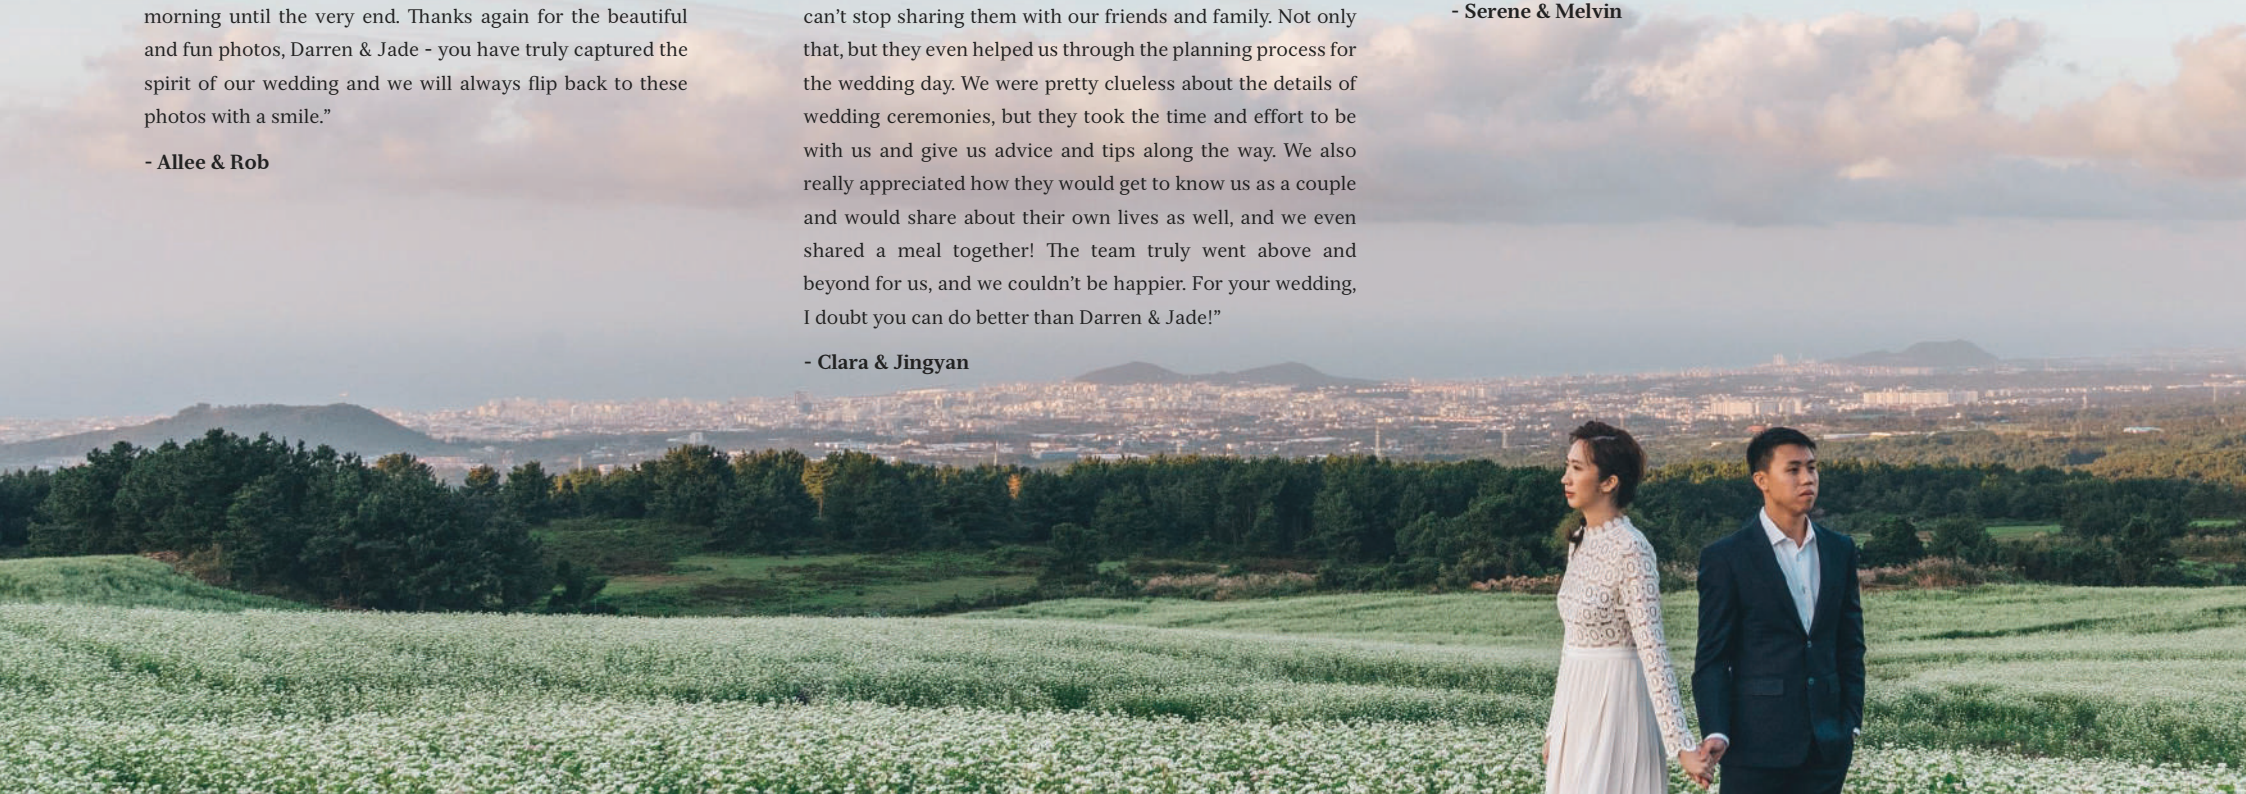

"Darren & Jade are not only consummate professionals, but also amazing human beings. Engaging them to be our wedding photographers and videographers was one of the best decisions that we made. With Darren & Jade you can rest assured knowing that all the best and important moments of your wedding day will be captured in fantastic quality. The photos and videos we got were simply incredible, and we can't stop sharing them with our friends and family. Not only that, but they even helped us through the planning process for the wedding day. We were pretty clueless about the details of wedding ceremonies, but they took the time and effort to be with us and give us advice and tips along the way. We also really appreciated how they would get to know us as a couple and would share about their own lives as well, and we even shared a meal together! The team truly went above and beyond for us, and we couldn't be happier. For your wedding, I doubt you can do better than Darren & Jade!"

- Clara & Jingyan

Having Darren & Jade for our photography, videography, and makeup was so AWESOME. The 6 days of shooting in Seoul and Jeju felt like we were traveling with friends. The best part is, although they had never been to Korea and I had one of the worst flu and cough in history but the whole shoot went sooooo smoothly and sooooo well (we were blessed with the perfect weather, we randomly found a REAL legit lalang field during sunset, and we caught a freaking full rainbow!)

Many thanks to Darren - for capturing all the epic shots (YES, they were UNREAL! It's exactly the kind of outdoor pictures we wanted and not the typical ones taken in Korea or in a studio), to Jade, for waking up early to make me look so beautiful (from the Tai Tai look to the Korean girl look) within the shortest time possible so I can have maximum amount of rest every night and not forgetting our young but so talented videographer Xinyi - for making the whole videoing process easy and simple for us (and also encouraging me with your "Serene, hang in there!").

- Serene & Melvin

# DESTINATION PREWEDDING COLLECTION

Explore anywhere, anytime with us. We'll capture moments that are authentically you in front of epic sunsets together!

## *Photography*

**\$2988\***

A2 Canvas

\$295

# FREQUENTLY ASKED QUESTIONS

## **1. What is the difference in the photography tiers? (Associate / Senior Associate / Principal / Darren)**

Our photographers have varying years of experience, ranging from Associate (1-3 years) to Senior Associate (~5 years) to Principal (>6 years) to Darren/Jade (>10 years). That said, all our photographers have been thoroughly trained by Darren and Jade so the shooting and editing style of your photos will be consistent with our portfolio - and your wedding day shoot experience will be amazing!

## **2. How many photos will we receive?**

You will receive at a minimum the number of photos specified in our pricing sheet for the respective packages - however, we encourage our couples not to get caught up with the number of photos. The most important thing to us is to ensure that the story of your wedding day or prewedding is captured in its entirety.

## **3. How many photographers and videographers do we need for our wedding day?**

Our photography packages are for one photographer only, but we'd recommend topping up for a second photographer to capture the expressions and angles of important guests during key moments of your wedding where the main photographer will need to focus on you and your partner.

As for videography, there are two videographers in every package which we have found adequate for most weddings - but chat with us about your wedding day so we can advise!

## **4. Can I have a same day edit video for my wedding?**

A same day edit is only applicable for VIDEOGRAPHY 8 package and requires 5 hours of editing time (typically during the long break before your dinner banquet). If 5 hours of editing time is not available, an additional videographer must be added for an additional \$888 to provide the same day edit. Over the years we've received many requests to edit on much less than 5 hours of editing time but the most important thing for us is to maintain our quality standards for your wedding video.

## **5. How long in advance should we do our prewedding photography or videography shoot?**

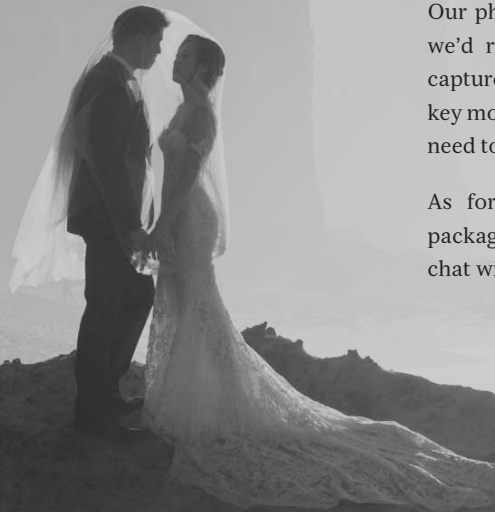

We recommend at least 3 months before your wedding date which would allow for you to receive your prints and albums in time to show at your wedding reception. However we've had overseas weddings shoots over the years where the prewedding was shot a few days before the wedding day and we managed to edit everything in time. Work with us and let's see what we can figure out together!

## **6. What does "raw keepsake speeches" refer to in the Videography packages?**

During your wedding, we will record every thank you speech from the various speakers you have scheduled and deliver each speech in separate clips apart from the wedding highlights (as they might not all be included in the full wedding highlights).

## **7. Can we have all the raw photos and video footages?**

We do not deliver raw or unedited files of any kind as we believe the editing process is an integral part of our end product that we will deliver to you to preserve your wedding memories forever. We spend a lot of time on post-processing and curation of what we shoot to ensure that the story of your wedding is beautifully edited and told with all of its special details.

We're looking for couples that are just as adventurous  
and free spirited as we are!
